Prague, 4 December 2020

## INVITATION TO PRESS

### What?

The European GNSS Agency, together with the European Commission and under the auspices of the Germany's Presidency of the Council of the European Union, have the pleasure to invite you to the **European Space Week 2020**. Europe's No. 1 space event, showcasing how Europe is harnessing space technologies and applications for businesses and society is coming to your screens from **7-11 December 2020**.

### Why?

- Hear from policy experts and space stakeholders how the EU Space Programme helps deliver the EU priorities
- Engage with space companies, innovators, entrepreneurs and SMEs from across Europe
- Watch top start-ups pitching their projects in front of EU investors
- Meet the winners of the #GeomaticsOnTheMove and Farming by Satellite competitions
- Discover the H2020 most successful space stories and get ready for Horizon Europe
- Attend new sessions covering societal topics such as equality and inclusion and digital communications

On **Tuesday 8 December 2020 at 09:00** a press conference will be held where Internal Market Commissioner Thierry Breton, Federal Government Coordinator of German Aerospace Policy Thomas Jarzombek, and Chair of the European Parliament's ITRE committee MEP Cristian-Silviu Buşoi will answer questions from the press. Participants will always have the opportunity to ask questions through a dedicated platform.

A detailed [agenda can be found here](#)

Registration is free for members of the press - [REGISTER NOW](#)
